Myrosta

Your ED roster — on every device

Scan to open Myrosta

myrosta.com.au

Sign in on your phone

1. Open **myrosta.com.au** and tap **Sign in**.
2. Choose **Mobile (SMS)**, enter your mobile, tap **Send code**. (Prefer email? Tap **Email**.)
3. Type the **6-digit code** you receive — you're in. You **stay signed in**, so it's a one-time setup.
4. Optional: **Add to Home Screen** (iPhone: Share menu · Android: ⋮ menu) so it opens like an app.

Sign in on a computer

- Go to **myrosta.com.au** in Chrome, Edge or Safari and sign in the same way (a code by SMS or email).
- In Chrome/Edge, click the **install icon** in the address bar to keep it as a desktop app — it stays in sync with your phone.

What you can do

- See **your own shifts** (list or calendar) and add them to your phone calendar with reminders.
- **Pick your shifts** when a round opens — collision-proof and quota-fair.
- **Request leave or a swap** in a tap.

No code arriving? Check junk/spam, wait a moment and tap Resend, and make sure your roster admin has your correct mobile/email on file. If your hospital email blocks external mail, just use Mobile (SMS).
